# Welcome to the TemaHome Style catalogue

At TemaHome, when we begin designing a product for your home, we think of a solution that embodies **style, comfort** and a certain degree of **edginess**. We do this because we believe that our customers like their homes to have a distinct look and feel, which is, in a way, an extension of their own personal lifestyle and individuality.

TemaHome is composed of a group of professionals that love **design and quality lifestyle**. We are a close-knit group and, just like you, as individuals, we like to buy from companies that generate **good feelings** and offer beautiful products that enrich our lives.

The Style collection presented in this catalogue portrays complete environments for **Living, Dining, Sleeping** and **Working** which were prepared by a team of product and interior designers. You will find that the solutions presented are quite **versatile** and **adaptable**, given the numerous choices of **fine materials and finishes available**. If you value **detail**, you will be pleasantly surprised with what our creative team has prepared for you.

**Our business is to delivery complete solutions where harmony and sophistication are always in evidence.**

Stephan Godinho Lopes Morais  
Chief Executive Officer

## Denso - Modular System

Designed by TemaHome

Unique in its dimension, this system creates the perfect balance with any other element in a room. Its thick shelves set the Denso apart from other systems while creating a contemporary atmosphere. Three distinct high gloss finishes, two heights and two different width shelves, give you the freedom to create the unit just the way you want.

COMPOSITION A  
H214 x W150,8 x D34 cm

COMPOSITION D  
H214x W437,6 x D34 cm  
H84 x W172 x D13 "

# Detailed Information

## Prairie - Wall System

Designed by Délio Vicente

Consisting of floor and wall modules that can be customized with either drop down doors or generously sized drawers, the Prairie system was developed to easily adapt to the space available. The system is ultra-flexible, giving you the option to create a completely unique look in a wall system by mixing 3 different color bases with either black or white high gloss modules. This refined, elegant system will take care of storing and hiding away all your belongings in any room.

WALL MODULE

W260 x D50 cm  
W102 x D20 "

COMPOSITION B  
W390 x D50 cm  
W153 x D20 "

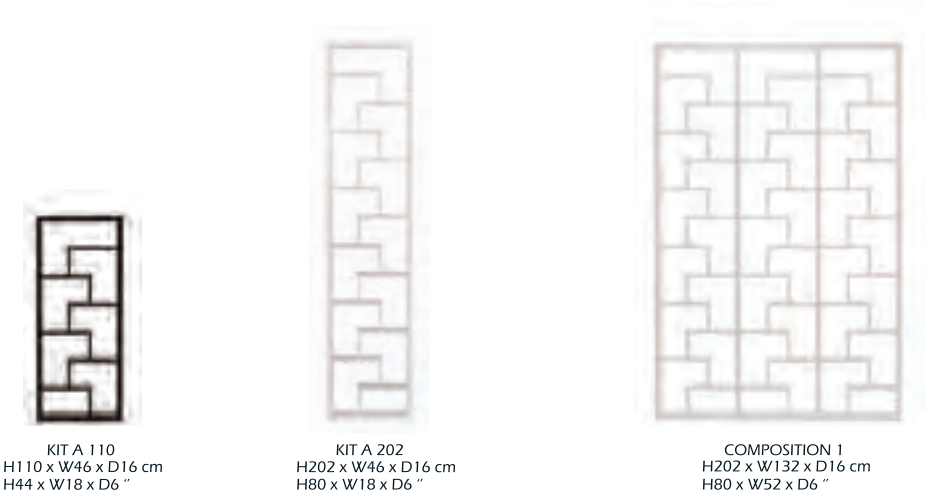

Ivy - Shelving Unit

Designed by Ricardo Marçal

A celebration of minimalistic design, the Ivy shelving unit achieves the rare balance between true leather, wood and metal, were the elements that inspired the design of the Prairie sofas. Featuring functionality and visual impact. Because of its modular casing, you can extend the IVY to almost any modern geometric forms with sober, smooth finishes, these sofas are instant classics. Available in a width you need creating an effect never seen in any other shelving solution. When used as a room divider, its geometric lines create mood depending on the incidence of light.

H80 x W52 x D6 "

Panorama - Shelving Unit

Designed by Inês Martinho

PANORAMA SHELVING UNIT  
H75 x W120 x D23 cm  
H30 x W47 x D9 "

Nest - Rotating Shelving Unit

Designed by Ricardo Marçal

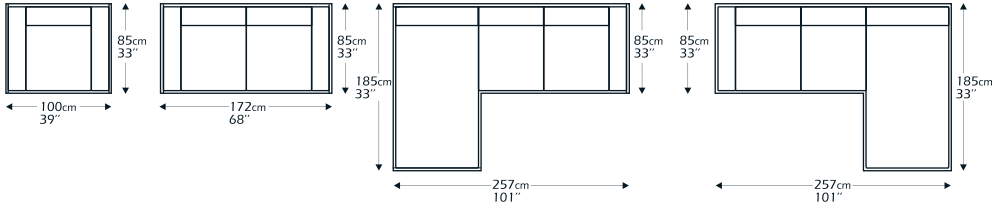

NEST ROTATING SHELVING UNIT  
H136 x W71 x D71 cm  
H54 x W28 x D28 "

Resulting from the idea of creating a new kind of shelving unit, Panorama was developed as an accessory that could work both as media storage and decorative accent. Its dimensions allow you to increase in numbers to display them sideways, upwards or downwards. Panorama is our answer to your creative needs!

This rotating bookshelf is the living proof that bookcases can be interesting pieces of design furniture. Featuring plenty of storage, the Nest uses irregular geometric patterns to create a visual effect that varies according to its content while providing space for odd sized objects.

H 10 x W 35 x D 35 "

FLORA SET OF TWO TABLES  
H 26 x W 180 x D 90 cm  
H 10 x W 71 x D 35 "

These low profile coffee tables are perfect to create a stylish and clean look, both for their simple geometric forms and high gloss finish. Highly reflective surface makes it easy to play with different colors in surrounding elements.

This coffee table is a statement of minimalistic living, bringing functionality to its Asian inspired design. The opening tops provide maximum functionality and valuable storage while keeping objects out of sight.

Resulting from the marriage of visual communication and product design, this set of tables present a graphic concept frequently applied to various products but never to furniture. The silver floral pattern is applied to the coffee table before the final lacquer giving it a uniform high gloss finish. The Flora table is proof that the right detail makes a piece unique.

H 30 x W 104 x D 39 "

The four square tops that make up this table create a dazzling effect from any perspective. Set on a base that gives the impression of laser cut precision, this table sits up to 8 people comfortably and is ideal for cozy dining entertainment.

DUSK TABLE  
H 75 x W 130 x D 130 cm  
H 30 x W 51 x D 51 "  
H 75 x W 150 x D 150 cm  
H 30 x W 59 x D 59 "

Like working on air, the visual effect presented by the Tropic table results from the combination of a thick wood table top and elegant metal trestles. A sophisticated home office solution with an industrial urban look.

Detailed Information

Glare - Chair

Designed by Filipe Alarcão with Délio Vicente

Sporting an aerodynamic design, the Glare chair features a profile that is sufficiently appealing to stand alone as an accent but also fits beautifully in sets populating the modern dining room.

Tundra - Chair

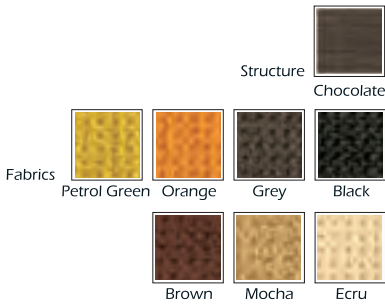

Designed by TemaHome

With a classic design, the Tundra chair's fine selection of materials and superior finish put this in a class of its own making it the perfect addition to the most discriminating of the spaces.

Dusk - Chair

Designed by TemaHome

Featuring a wrap around fabric design, the Dusk chair with its abundant choice of fabric colors, is the right accent to complement your dining space.

Detailed Information

Float - Bedroom

Designed by TemaHome

BED  
H 81/31 x W 216,5 x L 180 cm (For 160cm mattress)  
H 39/12 x W 65 x L 85 '' (Queen)  
H 81/31 x W 211,5 x L 180 cm (For 160cm mattress)  
H 39/12 x W 63 x L 85 '' (Queen)

NIGHT TABLE  
H 45 x W 60 x D 43,5 cm  
H 18 x W 24 x D 17''

CHEST OF DRAWERS  
H 113 x W 90 x D 53 cm  
H 44 x W 35 x D 21''

DRESSER

Our fields are more green, Our skies are more blue.

Portugal is a land of lush green vegetation and beautiful clear blue seas. Our green heritage and deep respect for Mother Nature is a constant in our every day life. The Portuguese soul has always been in balance with the environment, well before it became a global trend. The essence of our eco-friendly policy is to co-exist in harmony with the natural environment and eco-system. With this principle, we apply four basic concepts in everything we do. They are:

1. We focus in “producing more from less” and “upgrading resource productivity,” to reduce the material intensity and energy intensity of commodities. Dedicated to cut the consumption of unnecessary raw material, processes, and energy, always producing the lowest quantity of waste material.
2. We pay attention to the concept of “design for environment” during the development process, and produce eco-friendly products.
3. We operate a strict quality control department that monitors incoming resources assuring that no protected wood species are ever used in our products and that all of our vendors comply with their environmental regulations.
4. We are active members of the EU’s GreenDot society. A Pro Europe (Packaging Recovery Organization Europe) initiative for recycling natural resources.

At TemaHome, we believe in building a better tomorrow, today

**Filipe Alarcão, Product Designer**

Filipe Alarcão, was born in Lisbon in 1963. With a degree in Product Design from the School of Fine Arts of Lisbon and a Master's in Industrial Design from the Domus Academy in Milan, his qualifications and vast experience speak for themselves.

Still, in choosing Filipe Alarcão to lead our Design department, we added personality to our company, for he is an influential and well-recognized contributor to both Portuguese and international design.

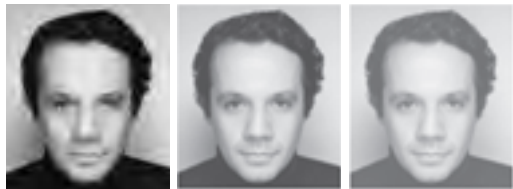

From 1995 to 1997, Filipe worked with Michele de Lucchi, in Milan, as a consultant for Olivetti Personal Computers, developing projects for their personal computers.

Stepping into interior design, he has created spaces such as the ModaLisboa Design shop, Galeria Atlantis, “Design aus Portugal” exhibit in Frankfurt, and the Delidelux shop in Lisbon.

In 1994, he won the National Design Prize, promoted by the Portuguese Center for Design, in 2002, first prize for the Polis Competition for global signage systems for urban places in Portugal (in collaboration with communication designer Henrique Cayette), and again in 2002, first prize at the Architecture competition for the Museum of Contemporary Art of Elvas, Portugal (in collaboration with architect Pedro Reis).

At present, Filipe Alarcão is sharing his time between his atelier in Lisbon - where he develops Industrial Design projects in furniture - and his PHD in Milan. His contributions have gone as far as established names as Vista Alegre | Atlantis, Asplund, TemaHome, Schréder, Senda, Cerâmicas S. Bernardo, Larus, Moda Lisboa, and many others.

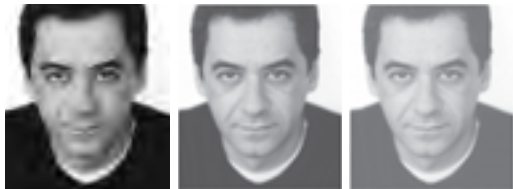

His works are shown at the Lisbon Design Museum.

**Fernando Brizio, Product Designer**

Was born in Huila, Angola in 1968 and obtained a Bachelor of Arts in Equipment Design at the Lisbon School of Fine Arts. Since 1999, has worked on various projects in product design, scenarios/backdrops and exhibitions for companies like Authentics, Details and DIM-Die Imaginäre Manufaktur of Germany, Protodesign, Atlantis, M Glass, Choreographer Rui Horta, Modalisboa, Schréder, Lux/Loja Atalaia of Portugal, Droog Design and Cor Unum of the Netherlands.

He currently teaches at the School of Fine Arts in Caldas da Rainha and was a visiting professor at the ECAL in Lausanne and at the University of Design and Media in Karlsruhe, Germany.

His works have been shown in several exhibitions in Europe, Tokyo and San Francisco. Currently he is developing products for the TemaHome Trends collection.

**Marco Sousa Santos, Product Designer**

Born in 1962, Marco Sousa Santos graduated in Product Design on 1991.

In addition to designing his own works, Marco is an avid promoter of New Portuguese Design.

At the Proto Design 1992/2002 atelier, which Marco co-founded with José Viana, he conceived and coordinated multi-author projects in which many of the new vintage of Portuguese designers participated.

As founder and Artistic Director of Experimenta Design between 1998 and 2001, Marco Sousa Santos commissioned some of the most distinguished exhibitions of Portuguese Design in foreign countries. In 2002, he founded the Marco Sousa Santos Design atelier, which develops and provides consulting services for design projects, a service that is appreciated by both private and public institutions such as Moroso, Magis, Tronconi, Renault Paris, Vista Alegre, Atlantis, Mglass and TemaHome.

Between 2003 and 2004, he tried his hand as Artistic Director of the In'nova fair, in Lisbon, achieving great success at creating and coordinating a Design and Workshop program involving Portuguese companies. The results speak for themselves, resulting in the creation of more than a hundred new products from the finest Portuguese and international designers.

Figuring amongst his latest projects in interior design are the Walkculture exhibition, held in Berlin, the interior of the Portuguese pavilion in Zaragoza 2008 and the majestic inner touches of Lisbon's famous restaurant Tavares Rico.

His works are frequently exposed at such referential places as the Trinalli in Milan, the Salon du Meuble in Paris and London's Victoria & Albert Museum.

**Miguel Vieira Baptista, Product Designer**

Born in Lisbon in 1968, Miguel Vieira Baptista graduated in Industrial Design in 1990 from the Institute of Visual Arts, Design and Marketing (IADE) in Lisbon and went on to obtain a Master's in Product Design from the Glasgow School of Art in 1993.

Since 1994, Miguel has designed remarkable projects for companies like Atlantis, Authentics, Asplund, ICEP, Loja da Atalaia, Proto Design and Vista Alegre.

He has been teaching Industrial Design at ESAD Caldas da Rainha, Portugal, for 8 years, and was a visiting professor at the Karlsruhe Design School in Germany. In 2001, Miguel added to his professional background by designing and being the curator of the exhibition project “Dieter Rams Haus” for ExperimentaDesign and Centro Cultural de Belém. In 2002, he curated and designed the exhibition of Contemporary Portuguese Design “Shopwindow” for the Portuguese Presidency which was presented in Helsinki.

His design trademark travelled several European cities through an exhibition truck, designed by him and named the “Voyager03” for the 2003 edition of ExperimentaDesign.

Since 2002, he has been designing the interiors for the ModaLisboa – Lisbon Fashion Week editions.

In 2006, he designed the Scatola Armonica for the TemaHome Trends collection and is currently preparing one new product for TemaHome.

**Délio Vicente, Product Designer**

Délio Vicente, born in 1982, is the son of a skilled Portuguese carpenter who spent his childhood learning the trade. At a very early age he was already designing custom wood toys and tree houses.

His professional career began with a degree in Industrial Design from the ESAD CR, that led his works to be displayed at the Bi-annual Exhibition of Young European and Mediterranean Creators in 2005, in Naples, Italy.

Earlier still, in 2003, he was awarded the first prize in the National Competition for Young Creators.

Délio spent a season in England at Nottingham Trent University, where British Furniture and Product Design classes gave his work some international flair.

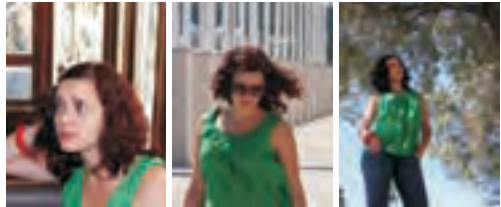

He is part of TemaHome's product design team.

**Flora Mendonça, Communications Designer**

Born in 1980 in Lisbon, Flora is known, from a very early age, for her inclination to the visual arts. A clear sign of this came in 2005 and 2006, when she was singled out by the Portuguese Center of Design to take part in an internship which would conclude her degree in Communications Design at the Institute of Visual Arts, Design and Marketing (IADE) in Lisbon.

Flora's internship project was a set of tables bearing her name, that later was selected to be featured at the 2006 100% Design, in London, ultimately earning her reviews in the media as “an upcoming Portuguese designer”.

Currently, Flora is a member of TemaHome's design team and her main focus is the marketing department, where she adds her personal touch as Graphic & Communication Designer.

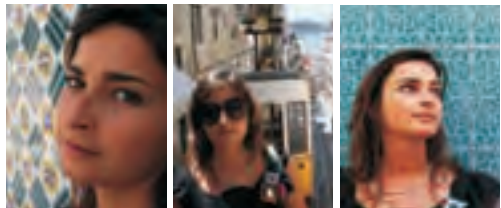

**Inês Martinho, Product Designer**

Born 1983 in Lisbon, Inês Martinho graduated from the 2006 class of Industrial Design of the Institute of Visual Arts, Design and Marketing (IADE). Among many accolades, her designs have been awarded in contests for brands like Grand Marnier, Roche Pharmaceuticals and Superbock (Experimenta Design).

“In order for an object to be chosen to become part of one's house, it has to transmit emotion and help build a space that they can identify with.” This is Inês Martinho's motto, one which she translates into all of her creations.

With deep admiration for the 40s and the 50s classics, such as Jean Prouvé and Charles & Ray Eames, Inês's inspiration comes from sources like cinema and music. She is known for her attachment to purist and minimalistic materials, not for their form, but rather for the ideal that in addition to functionality, a design should exist within an individual personality.

Inês is a member of TemaHome's product design team.

**Maria João Maia, Interior Designer**

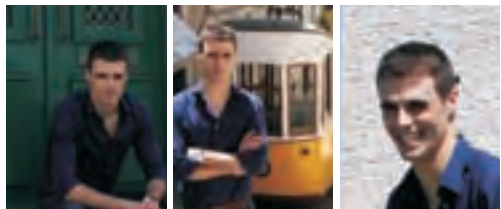

Born in Lisbon in 1978, Maria João obtained a degree in Interior Design from the Industrial Design Institute of Visual Arts, Design and Marketing (IADE) in 2000.

In her second year, she was awarded an internship at a top interior design shop in Lisbon named Dimensão, where she redesigned and lead the remodelling of their shops – Kit Market, Artécnica and Dimensão.

“Create equilibrium between form, color and function in search of the unification of elements in a coherent ... perfect way” is what moves Maria João Maia.

After graduation, she worked with the most renowned Portuguese interior designer, Graça Viterbo.

A year later, and for the following five years, she took on the challenge of developing interior design proposals for hotels, namely Tivoli in Portugal and charm hotels in Brasil. She went on to develop concepts for commercial spaces for another year as a freelancer before joining TemaHome's design team, where she develops interior design concepts for our catalogue, trade fairs and customers.

**Ricardo Marçal, Product Designer & Development Coordinator**

Born 1979 in Hamburg, Germany, Ricardo is second to none when it comes to product development. His attention to detail brought us some of the finest designs we ever produced. A graduate of the 2004 Product design and engineering of Institute of technology in Viana do Castelo, Portugal, Ricardo developed projects for the Jasmin Glass Studio and art for the JadeTree record label early in his career.

Currently, Ricardo attends to the Porto University where he is obtaining his Master degree in Industrial design and is in charge of all product development at TemaHome.
